

Hi I am Venus a

Product Design Lead & Strategist

With over 15 years of experience across product design, UX, and digital experiences, I've had the opportunity to work with a diverse range of clients and organisations, shaping products across enterprise platforms.

Over the last couple of months, I've been consciously investing time into hands-on personal projects to deepen my technical and strategic understanding of AI-enabled product creation. This has included actively upskilling across UX AI workflows, AI orchestration knowledge, rapid prototyping, and AI-assisted development tools.

I combine strategic product thinking with hands-on experimentation, continuously evolving my skills across design, prototyping, and AI-enabled development workflows.

SKILLS AND EXPERIENCE

Leadership & Design Strategy

- Stakeholder Management
- Leading Cross-functional Initiatives
- Mentoring & Coaching Designers
- Product Vision & Roadmapping
- Design Systems & Scalable UI Frameworks
- Data-informed Decision Making

AI & Product Design

- Generative AI for UX
- End-to-End User Experience Design
- Wireframing & Prototyping (Figma, FigJam)
- Accessibility (WCAG, inclusive design)
- Design for SaaS Platforms
- AI-assisted Prototyping Tools
- Prompt Engineering

User Research & Testing

- Research (Interviews, Surveys, Analytics)
- A/B Testing & Experimentation
- Usability Testing (Moderated/Unmoderated)

HOBBIES & INTERESTS

Yoga

Surfing

AI/tech

Learning

UX TOOLS

- ✓ Figma + AI Plugins
- ✓ Research tools: [usertesting.com](#), [Askable](#)
- ✓ Design engineering: [Claude Code](#) / [git hub](#)
- ✓ AI-assisted Prototyping: [VS code](#) / [Vercel](#)
- ✓ Vice coding tools: [Replit](#), [base44](#)

EDUCATION & TRAINING

Feb 2026, Coursera

Generative AI for UX Design

May 2022, SNSW

UX Accessibility training

July 2017, Epic Agile

Agile Foundations

Jun 2016 - Aug 2016, General Assembly

User Experience Design

Feb 2003 - Dec 2006, Billy Blue

Visual Communication Design

Experience

July 2025 - May 2026, NewsCorp - SENIOR PRODUCT DESIGNER - AI

Project Overview: Design and implementation of AI audio functionalities into our News Corp publications

- **Research and Strategy:** Planned and executed comprehensive quantitative and qualitative user research to gain a deep understanding of how our audience interacts with audio news content, focusing on a mobile-first approach.
- **AI and Voice UI:** Implemented AI functionality to assist users with decision-making, ensuring transparency by providing clear explanations (e.g., "Why am I seeing this?") • Explored and initiated the implementation of Voice UI to facilitate user context switching across various devices (e.g., phone, car, smart speaker). Spearheaded the integration of AI tools for the automated conversion of written articles into audio content
- **Design and Implementation:** Designed and implemented personalization, recommendation, and editorial curation experiences for the Text-to-Audio feature • Explored and defined UI components necessary for a seamless audio experience, including playback controls, progress indicators, queue management, and audio-first navigation • Implemented crucial technical audio features such as playback states, buffering and streaming

July 2024 - July 2025, ASX - LEAD PRODUCT DESIGNER

Project Overview: Led the end-to-end product design phase for the Trade Accept platform

- Led the end-to-end product design phase for the Trade Accept platform, prioritizing a user-centric approach while ensuring compliance with financial industry regulations.
- Designed intuitive navigation and optimised user journeys to simplify transaction processing across multiple trade execution platforms, significantly enhancing operational efficiency and reducing user complexity.
- Work closely with product managers, engineers, and stakeholders to align design concepts with technical feasibility and business goals.
- Clearly communicate design decisions and rationale to team members and stakeholders.
- Collaborate with developers to ensure accurate implementation of designs and provide support during development.
- Conduct usability testing sessions with AXS participants, gather their feedback and validate design decisions.
- Optimise user experience by considering information architecture, interaction design, and usability principles.

July 2023 - February 2024, Safety Culture - SENIOR/LEAD PRODUCT DESIGNER

Project overview: Lead design and research initiatives for Contextual Sharing

- Stakeholder management to gain insight into company goals and vision, and ability to define key business objectives
- Workshop facilitations to understand user needs and customers pain points
- Conduct research to gather insights into how users perceive these processes.
- Processing and analysing research results to derive actionable strategic and tactical recommendations.
- Design user flows that guide users through the process logically.
- Provide mentoring and guidance to junior designers, fostering their professional growth and development.

September 2022 - July 2023, Atlassian - SENIOR PRODUCT DESIGNER (CONTRACT)

Project Overview: Driving product growth for Jira Advanced Roadmaps by designing user experiences that reduce friction, increase feature adoption, and improve critical business KPIs

- Design User flows towards improving the user journey for customers to upgrade to paid plans
- Perform A/B testing to compare different design variations and measure their success
- Lead and manage and collaborate with cross-functional teams to define the product vision and roadmap.
- Conduct research experiments to validate and measure the discoverability and learnability of new features
- Implement research methods such as usability and A/B testing for swift evaluation of new ideas
- Identify strategic areas within the product where we can emphasise the value of our premium subscription.

Dec 2020 - September 2022, Service NSW - PRINCIPAL PRODUCT DESIGNER

Project overview: Leading the research and design of the "Seniors Card" program from concept through to production.

- Lead and manage a team of fellow designers, by providing guidance, feedback, and mentoring as needed.
- Support team through reviews and feedback as well as Facilitate the growth and development of fellow designers by coaching and helping them develop their skills
- Establish relationships with a range of stakeholders across government and partners
- Lead research operations, from planning and recruitment to data collection, synthesis and reporting
- Strong communication skills to better understand and share the needs of our NSW citizens
- Strategic design concepts and recommendations through thoughtful research analysis

Oct 2020 - Dec 2020, Transport NSW - SENIOR PRODUCT DESIGNER

Project overview: Plan and Lead the UX research and UI design strategy for in app 'traffic disruptions'

- Lead, give guidance and support to the design team.
- Identify techniques and methodologies for solving UX problems and developing leading solutions.
- Turn concepts and ideas into prototypes, document outcomes, review and monitor quality UX prior release
- Communicating delivery timelines and key milestones throughout a constant engagement

Experience

June 2019 - October 2020, SBS Australia - LEAD USER EXPERIENCE DESIGNER

Project Overview: Lead the Research and design of SBS discovery Hub, search and their navigation structure.

- Stakeholders management and close collaboration with business managers to understand the business goal
- Identify business strategies and synchronise them coherently with users goals
- Detailed user-interface specifications to effectively communicate interaction and design ideas
- Organise and moderate and unmoderated usability test, user interviews, focus groups and research reports
- Facilitate design discussions and workshops, such as Design critique, design studio and feasibility assessments.
- Develop detailed user-interface specifications, wireframes, prototypes and documentation.

November 2018 – June 2019, Seven Network - SENIOR UX/UI DESIGNER

Project overview: Design wireframes, user journeys, and UI mock-ups optimised for a wide range of breakpoints.

- Work closely with multidisciplinary teams to ensure consistency across all the platforms
- Conducted various research methodologies
- Create user-center designs by considering analysis, customer feedback and usability findings.

February 2018 – November 2018, Telstra - LEAD USER EXPERIENCE

Project overview: Working on complex digital initiatives for Telstra TV.

- Lead, give guidance and support to the design team.
- Plan and Lead the UX sprint planning, research, user experience strategy, Design, manage research initiatives
- Identify techniques and methodologies for solving UX problems and developing leading solutions.
- Turn concepts and ideas into prototypes, document outcomes, review and monitor quality UX prior release
- Communicating delivery timelines and key milestones throughout a constant engagement

June 2017 – December 2017, Woolies X - UX/UI DESIGNER

Project Overview: Design wireframes, prototypes and UI Designs for “track my order” initiative

- Implement and conduct various usability tests and create reports based on the findings
- Create user-centre designs by considering analysis, customer feedback and usability findings.

July 2016 - January 2018, Hello AuPairs - PRODUCT DESIGNER

- Research and Planning thorough research on the target market, user needs, and pain points. This involves creating user personas, scenarios, and stories to inform the product's design
- Discovery Phase to validate whether the product idea holds promise. It provides insights into user behavior, preferences, and pain points, helping decide if the product is worth the investment
- Design and Prototyping, wireframes, prototypes, and mockups to illustrate the product's interface and interactions
- Collaborated closely with international engineering teams, fostering effective cross-functional communication and alignment

June 2010 - July 2016 - Visual Designer (various companies)
